My Field of Expertise.

As an Architect with a focus on BIM (Building Information Modeling) and Revit, my work revolves around merging creativity with advanced technology to design innovative, functional, and sustainable spaces. I specialize in residential, commercial, and mixed-use architecture, with an emphasis on creating environments that are both visually appealing and structurally sound.

Architectural Design: Creating functional and aesthetic architectural solutions for residential and commercial buildings.

Revit & BIM: Mastery in using Revit for accurate modeling, documentation, and coordination of architectural designs.

Sustainable Architecture: Focusing on energy-efficient, environmentally friendly design solutions.

Interior & Exterior Design: Blending design concepts to create seamless, cohesive interior and exterior spaces.

Project Management & Consultation: Overseeing projects from conception to completion, ensuring smooth execution and client satisfaction.

Work.

Karaneh Paydar Consulting Engineers, From 2020 to present
Architectural Design Specialist

MAT Office Architecture Group From 2022 to present
