Sepehr Sadeghi

S e p e h r
S a d e g h i

Hi.

My name is **Sepehr Sadeghi**.

I always Excited to learn something new especially in architecture, urban design and landscape architecture. In recent years, I have become a person who imagines the real world graphically.

And I think of a few things, including that if there was no stomach, there would be no problem! (No disease, No war).

Have you ever thought about that: If you were playing music at critical moments in your life, how would you feel ?!

And in the end, you will never see me without a checkered shirt.
