- Emam khomeyni st
- Qoreyshi Blvd
- Fardis town

LOCATION & SITE

● Baghe bahar Alborz Residential complex

● JUPITER Site Area: 5000 m²

Concept of Jupiter project

The concept is an idea or notion that forms the backbone and foundation of a project and one that drives it forward. It becomes the force and the identity behind a project's progress, which is consistently considered throughout the stages of its development.

The native characteristics of the project area were our sources of inspiration in design, particularly the village of Masouleh where the roofs are stacked in different forms, and its old houses overlying one another in different shapes, since the ancient times.

The way of lifestyle of people in ancient times can inspire contemporary people to treasure their original culture.
