PORTFOLIO

2010-2025

Architect : Alireza Meer

Master of engineering in urban planning & Architecture from Yazd university-Iran

B.S. of architecture from Chamran university of Ahwaz-Iran

Born in 1980

Alireza Meer (Farhad) founded Meer & Partners Architecture Studio in 2010, a leading architecture and interior * design firm based in Iran. Farhad holds a Master of Architecture degree from Yazd University. Farhad is passionate about delivering architecture that challenges conventions, maximizes sustainability potential, and revives the hidden qualities of architecture. With market sensitivity and continuous innovation, Farhad collaborates with various real estate brands, making residential projects popular among both designers and consumers. Farhad's role in the company is to shape the quality of creative direction in private and commercial projects, architecture and interior design, among multiple teams, at the forefront of creating outstanding and effective solutions for clients

- Implemented Projects Section

■ About us

Meer & Partners Architecture Studio started its professional activity in June 2010 in Tehran and Karaj with the description of civil and architectural activities in cooperation with a group of graduates of prestigious Iranian universities. Over the past years, this complex has been continuously present in various projects by cooperating with top-tier national companies and participating in domestic and foreign competitions, and has succeeded in providing consulting, architectural and urban planning services in more than 120 projects in different countries.

The management vision of this complex is to satisfy employers by meeting quality demands, providing correct and comprehensive services in a timely and creative manner. Therefore, to realize this vision, a quality management system based on ISO 9001 and ISO 14001 standards has been established in the company and institutionalized among employees and experts through training. Also, the OHSAS 18001 occupational health and safety management standard was adopted with the aim of creating an effective management strategy in the company to reduce risk and maintain employee safety at the highest possible level.

This group has had extensive and long-standing activities in the fields of structural and facility design and calculations, architectural design, including phase 1 and 2 architectural design, interior design, and landscape design, and has so far presented large and successful domestic and foreign projects.

■ Our values

- Customer-centric perspective as the focal point of values
- Creativity, innovation and entrepreneurship
- Honesty, integrity, trust and adherence to commitments
- Legality and observance of the principle of mutual respect
- Teamwork and collaborative effort and dynamics
- Optimal use of resources

In addition to the construction and execution department of the architectural project construction unit, this complex's specialized workshop, with advanced equipment and expert human resources in various fields, provides the necessary services to esteemed employers with the best quality and in the shortest possible time

The company believes that commitment is rooted in listening and learning from nature. We express local truths through careful selection of tools and materials, and we pay special respect to the rhythms of nature, culture and local society. The company's philosophy is to use architecture as a guiding design and ultimately strive to respect people's connection with nature as an organism and immersion in the landscape and to attach importance to the creation of memories of the landscape and facade

This company, with the artistic and scientific skills of its engineering team, in partnership with reputable consulting and implementation companies in the world, and using complete executive and construction facilities, has succeeded in designing and implementing diverse, efficient, and special commercial, administrative, residential, cultural, tourist, industrial, etc. spaces

- From European Cyprus Deaco Residence, Enalia Seaside, Pano Lefkara, Olympia Sports Resort, Lamaca Mall
- The projects of this company can be referred to as La Crescenta, Holly Oak, Blue Sky projects in California, USA Roble Tower in Malaga, Spain
- In Izmir, Turkey Armada Residence
- Homagama Project in Singapore Shaygan Office, Ghorbe Commercial Office, Arash Jordan Residential, Khaef Zafaraniieh Residential Complex, Qolhak Residential Complex, ...
- Interior Design of Delgosha Commercial Complex in Bazaar and
- In Tehran, the implementation of the Westfield Mehrshahr Commercial and Administrative Complex, Reza Tower, Camellia Garden and more than 50,000 square meters of residential complex in Karaj, Roya Sabz Tourist Recreational Complex
- In Motel Qu, Sepehr Tourist Recreational Residential Village, Rezvanshahr, Baharestan Residence in Royan, Gorgan Tourist Recreational Residential and other commercial and residential administrative projects at the national level

Paradise Mall

Built Area : 21.000 Sq.m
Client : Mr.Keshtpour
Location : Valfajr sq-Alborz-Iran
Year: 2013
Designed by : Studio Meer

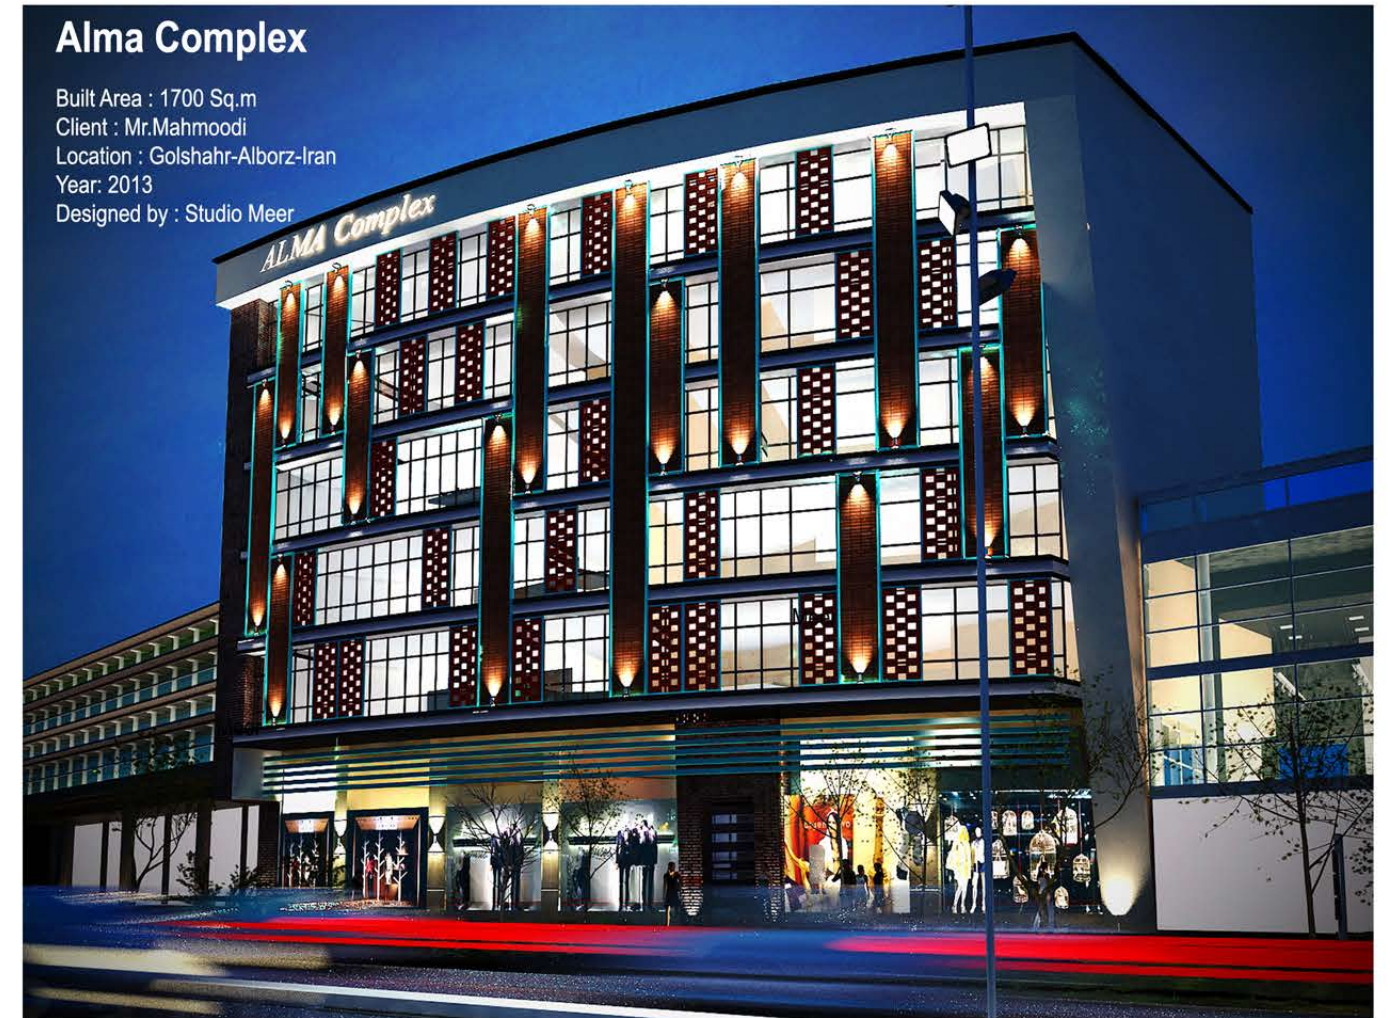

STUDIO MEER Architectural Design

In this project, the use of a simple covering material on the outer shell and interior walls can easily capture the visual appeal of the interior and facade of modern and minimalist villas. As can be seen in the images of this villa, creating open and bright spaces is one of the main characteristics in the design of interior spaces with a minimalist style. We should consider an open plan for the interior space. Also, placing large and full-length windows can help bring natural light into the space. In the interior design of minimalist villas, as the name suggests, we have refrained from adding details. Simple objects and furniture have been used. Strategic use of materials to create visual appeal, texture and unique personality is evident in the villa space.

Milano Beauty House

Built Area : 300 Sq.m
Client : Ms. Afzali
Location : Gohardasht-Alborz-Iran
Year : 2014
Designed by : Studio Meer

Reconstruction

At the request of the respected employer, we renovated an old two-story house and converted it into a beauty salon and a residential floor. For this purpose, after studies, we began to demolish and implement a new structure in this project. First, the demolition was carried out, and then the new structure was implemented. The height of the ceilings was changed. Half a floor was removed, and then a beauty salon and residential floor were implemented in it.

Client : Mr.Najafian
Location : Kelarabad-Mazandaran-Iran
Year : 2010
Designed by : Studio Meer

Architectural design

Studio Meer is a design company practicing architecture, urbanism, and sustainable design. Our approach to design projects is to consider the layers of physical and cultural archaeologies at each site to invent new possibilities for the buildings' function, context, and space, while insist on integrating passive sustainable design in every process
